SLAB PARTY & Green Building Open House

Sunday, May 23rd
3 to 5 pm

Plan to join the fun and celebrate the progress of Rhonda & Nigel Farrar's net-zero energy, carbon-neutral, SDG&E case study home!

-  The slab is poured and the recycled styrofoam/concrete block walls are going up. The 300 ft geothermal ground loop & the green pool, with its Swim Gym motor are in the ground.
-  The design and green building partners will be on hand to show off their work and their very cool green technologies and products.
-  Come and see how beautiful and easy it is to build green!

RSVP to RSVP@FarrarGreenHome.org for directions and details.
